

Was your child recently diagnosed with autism spectrum disorder?

Would you like to access services within school and in the community? Is your child aged 6 years or under?

We want to hear from you!

The University of Rochester is conducting a research study, "Mind the Gap," to help families access autism services after diagnosis.

What will happen?

- You will get information about topics that may help you access services
- Topics include understanding the system, challenging behavior, self-care, etc.
- You may be asked to identify goals and be provided with resources
- You may be matched with a peer coach, who is another parent of a child with a disability
- The program is free and you will be paid for filling out forms

RSRB-University of Rochester-Approval
RSRB No. 70826
Expires February 18, 2019
